REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the references found while searching the prior art teach applicant's step of dividing the frequency of Local Oscillator by "41" by a counter to obtain a second signal that is a ACQCLK signal. No obvious combination of references found would teach a person having ordinary skill in the art to make and use applicant's apparatus as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H Smith whose telephone number is 308-2488
